DETAILED ACTION

Response to Amendment

1. Applicant's amendment filed June 21, 2007 have been fully considered but it does not overcome the rejection of claim 1 under 35 USC 102(b) as being clearly anticipated by JP 05-301884 A. The incorporation of language directed to the process of making the claimed compound, oxaliplatin, in claim 1 does not overcome the above mention rejection. As now amended, claim 1 is a product-by-process claim. It's well settle that in product-by-process claims is the product and not the process that define the invention. See In re Bridgeford, 357 F2d 679, 149 USPQ 55 (CCPA 1955). Here, claim 1 is directed to an "Oxaliplatin with low content of accompanying impurities originating from its preparation". Applicants have further argued, that as amended, the claims are not anticipated or suggested by JP 05-301884 A. Here the main argument from Applicants is that the JP 05-301884 A reference does not discloses or suggest the process of making oxaliplatin as recited in claim 1. However, as noted above Applicants are not claiming the process of making oxaliplatin but rather oxaliplatin itself. Here, the reference teach or disclose an oxaliplatin that appears to be the same, or an obvious variant of, the claimed oxaliplatin even though they are produced by a different process. See In re Marosi, 710 F.2d 799, 218 USPQ 289 (Fed. Cir. 1983) and In re Thorpe, 777 F.2d 695, 227 USPQ 964 (Fed. Cir. 1985). Thus, the rejection is sustained and claim 1 and new claims 5 and 6 are rejected under 35 USC 102(b) as being clearly anticipated by JP 05-301884 A.

Art Unit: 1621

2. Applicant's amendment filed June 21, 2007 overcomes the rejection of claims 1-3 under 35 USC 112, second paragraph. Therefore the Examiner withdraws the rejection.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 2-4 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The phrase "1: 5 2" appears to be incorrect.

According to the original claim 2, the phrase is "1: \leq 2". Please correct.

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
